Forecast for Sunday 20 Feb 2022

Weather: The rain and snow soon turns more showery and the showers turn increasingly to snow at all but the lowest levels through the afternoon. The showers always most frequent across the Perthshire hills with the best of the sunshine across the eastern Cairngorms. Risk of temporary blizzard conditions with lying or drifting snow over the higher slopes.

Chance of cloud-free hill tops above 800m: Around 25% at dawn increasing to 40% in west and 75% in east through the morning.

Low Cloud and visibility: Periods of cloud above 600m becoming, especially in east, more occasional. Otherwise visibility very good but several kilometres in low level rain and a kilometre or less in heavier snow and snow showers and near zero in temporary blizzard conditions

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Gusts around 80mph over ridges and summits through morning. Difficult underfoot conditions expected with rain falling onto and a partial thaw, then re-freeze, of lying snow with fresh snow falling onto to this.

Forecast for Monday 21 Feb 2022

Weather: Clear or sunny spells and snow showers, the showers becoming increasingly isolated through the morning to leave the afternoon largely dry, especially in west, with long sunny spells. Cloud above the summits increasing through the evening. Lying snow continuing to drift in the strong winds, especially through the morning.

Maximum wind: Westerly veering northwesterly 30-40mph, gusts around 65mph over ridges and summits, easing 20-25mph through late morning and afternoon, then backing more southerly 10-15mph in evening, increasing again later.

Chance of cloud-free hill tops above 800m: Around 60% at first rising close to 100% in afternoon

Low Cloud and visibility: Occasional or periods of cloud above 600m at first, cloud then gradually lifting above the summits. Otherwise visibility very good falling briefly to around a kilometre or so in snow showers.

Temperature: **Glens:** Around zero Celsius rising to plus 6 or 7 Celsius by early afternoon
At 800m: Around minus 3 Celsius
Freezing level: Around 300m
